Just as there is no magic pill to prevent cognitive decline, no single almighty brain food can ensure a sharp brain as you age. Nutritionists emphasize that the most important strategy is to follow a healthy dietary pattern that includes a lot of fruits, vegetables, legumes, and whole grains.

**Foods linked to better brainpower - Harvard Health**

Apparently once we turn 60, women are supposed to be sexless and invisible. After all, why would we want to have sex, once our childbearing years have passed? As we all know from watching television, women over 60 are supposed to give up such irresponsible things, and settle in to a docile old age of chaste living, matronly wisdom, and unfashionable clothes.
