Case management is a managed care technique within the health care coverage system of the United States. It involves an integrated system that manages the delivery of comprehensive healthcare services for enrolled patients. Case managers are employed in almost every aspect of health care and these employ different approaches in the control of clinical actions.

Case management (US health system) - Wikipedia

Nurse managers are often promoted without enough training or support, which leads to burnout. There are many ways senior leadership can support nurse managers. One of them is to encourage vacation time. It's easy to say take a vacation, but harder to do, and many nurse managers feel they can't take time away. If they do, they are constantly in touch with the unit, answering emails and calls at ...
