Hipaa Plain Simple A Healthcare

Unless you work for the CIA or Secret Service, it's hard to imagine a job where you aren't able to talk about your work day. Except nursing. Sure, most of us have talked about an interesting patient case, or shared that funny cafeteria story with friends and family. However, talking about your day and giving out specific information are two different issues, and in nursing, there are strict ...

HIPAA Privacy Rule & Patient Confidentiality - Nursing Link

Healthcare cybersecurity is a growing concern. The last few years have seen hacking and IT security incidents steadily rise and many healthcare organizations have struggled to defend their network perimeter and keep cybercriminals at bay. 2015 was a record year for healthcare industry data breaches. More patient and health plan member records were exposed or stolen in 2015 than in the previous ...

FAQ - HipaaBridge
Employee names are not covered by HIPAA, unless the employee is also a patient and the email contains PHI about him or her. If your interoffice email is secure, like from one gmail account to another within the organization, you could put the patient's name in the subject line, along with PHI about the patient.

HIPAA and Email: there are rules - The Fox Group
See if you qualify for a Special Enrollment Period. 2019 Open Enrollment is over, but you may still be able to enroll in 2019 health insurance through a Special Enrollment Period.

Glossary | HealthCare.gov
Warning: As with bone graft codes, instrumentation codes are add-on codes, and are never reported with modifier 62. Some payers (including Medicare) will incorrectly reimburse the instrumentation and some bone graft codes when billed with modifier 62; however, CPT® guidelines prohibit reporting the instrumentation and bone graft codes with modifier 62.
