Home Networking Closet

A wiring closet is a small room commonly found in institutional buildings, such as schools and offices, where electrical connections are made. While they are used for many purposes, their most common use is for computer networking where it may be called a Premises Wire Distribution (PWD) Room. Many types of network connections place limits on the distance between end user equipment, such as ...

What happens when a man discovers he's gay but the culture he is raised in doesn't address sexuality, much less homosexuality? James Schwartz, an LGBT poet and writer who grew up in an Amish community in Michigan, gives *Sensa Nostra* an inside look at what it's like to grow up gay in a world where gender roles are strict and marriage between a man and woman is seen as an imperative.

The Amish Closet - Growing up Gay in a Closed Community

Fiber Optic & Networking Connector Guides What are Fiber & Networking Connectors? Fiber optic connectors are unique. Fiber cables transmit pulses of light instead of electrical signals, so the terminations must be much more precise.
