The history of chess can be traced back nearly 1500 years, although the earliest origins are uncertain. The earliest predecessor of the game probably originated in India, before the 6th century AD; a minority of historians believe the game originated in China. From India, the game spread to Persia. When the Arabs conquered Persia, chess was taken up by the Muslim world and subsequently spread to ...

Cracked pays people to make smart memes. Visit the Photoplasty and Pictofacts Workshop to get in on it.. Normally, one glance is all it takes to figure out why a thing was invented. Cars came about because we needed a better way to get from here to there, guns were created because we needed a more efficient way to wreck shit once we got there, etc.
