Ive been getting a misfire when the engine temps gets to 210F, it will only do this if it is idling, ounce i get the temp back down the misfire will go away, I am thinking it is a catalytic converter based on what i have read online, It had 3 cats, 2 in the manifold and one down stream. Is the cats or something else, i cant figure it out and i dont want to take it to shop.

Remanufactured Engines Jeep AMC . Horsepower ratings BHP Before 1972 American automakers rated their engines in brake horsepower (bhp), frequently referred to as SAE gross horsepower, because it was measured in accord with the protocols defined in SAE standards J245 and J1995. As with other brake horsepower test protocols, SAE gross hp was measured using a stock test engine, generally running ...
