### **Large Scale Constructions In Coastal**

Coastal management is defence against flooding and erosion, and techniques that stop erosion to claim lands.. Coastal zones occupy less than 15% of the Earth's land area, while they host more than 45% of the world population. Nearly 1.4 billion people live within 100 km of a shoreline and 100 m of sea level, with an average density 3 times higher than the global average for population.

A wetland is a distinct ecosystem that is inundated by water, either permanently or seasonally, where oxygen-free processes prevail. The primary factor that distinguishes wetlands from other land forms or water bodies is the characteristic vegetation of aquatic plants, adapted to the unique hydric soil. Wetlands play a number of functions, including water purification, water storage, processing ...

The province of Khuzestan is one of the centers of ancient civilization, based around Susa. French archeologists such as Jaques De Morgan date the civilization here as far back as 8000 BCE when excavating areas such as Tal-e Ali Kosh. The first large scale empire based here was that of the powerful 4th millennium BCE Elamites, a non-Semitic kingdom independent of Mesopotamia.
