Movement Alpha Science Series

Space: 1999 is a British-Italian science-fiction television programme that ran for two seasons from 1975 to 1977. In the opening episode, set in the year 1999, nuclear waste stored on the Moon's far side explodes, knocking the Moon out of orbit and sending it, as well as the 311 inhabitants of Moonbase Alpha, hurtling uncontrollably into space. Space: 1999 was the last production by the ...

In contrast with the traditional ERPs that can be considered as a series of transient post-synaptic responses of main pyramidal neurons triggered by a specific stimulus, ERD/ERS phenomena can be viewed as generated by changes in one or more parameters that control oscillations in neuronal networks (). We should indicate briefly which are the general properties of such oscillations.

Event-related EEG/MEG synchronization and ...

A class of drugs used to treat mild to moderate dementia in Parkinson's disease. These drugs increase brain levels of a neurotransmitter called acetylcholine, which helps neurons communicate with each other and is involved in memory, learning and thinking.

Parkinson's Glossary: The Michael J. Fox Foundation ...

Rastafari, sometimes termed Rastafarianism, is an Abrahamic religion that developed in Jamaica during the 1930s. Scholars of religion and related fields have classified it as both a new religious movement and a social movement. There is no central authority in control of the movement and much diversity exists among practitioners, who are known as Rastafari, Rastafarians, or Rastas.

Introduction. Myofascial release (MFR) has been described as an umbrella term for a wide variety of manual therapy techniques in which pressure is applied to muscle and fascia (McKenney et al., 2013). By extension, self-myofascial release (SMFR) is a type of MFR that is performed by the individual themselves rather than by a clinician, often using a tool.

Effects of self-myofascial release: A systematic review ...

Alpha Theory corrects any breakdowns in the decision process of a money manager by identifying the optimal economic decision based on a firm's fundamental research including risk-adjusted return. By fixing these breakdowns a firm can ensure that their best ideas are always their largest positions and that each position generates the maximum amount of alpha for the portfolio.
