

## *Satellite Communications Fourth Edition*

### **Satellite Communications Fourth Edition**

In American television terminology, a fourth network is a reference to a fourth broadcast (over-the-air) television network, as opposed to the Big Three television networks that dominated U.S. television from the 1950s to the 1990s: ABC, CBS and NBC.. When the U.S. television industry was in its infancy in the 1940s, there were four major full-time television networks that operated across the ...

Iran's telecommunications industry is almost entirely state-owned, dominated by the Telecommunication Company of Iran (TCI). Fixed-line penetration in 2004 was relatively well-developed by regional standards, standing at 22 lines per 100 people, higher than Egypt with 14 and Saudi Arabia with 15, although behind the UAE with 27. Iran had more than 1 mobile phone per inhabitant by 2012.
